Excellent speakers this year. Theme was on target and the speakers supported the theme well. Multi-service attendance was excellent.	1
Thanks for providing refreshments since travel for this Conference would be difficult.	1
More time needs to be allotted to SCI/Program Level Briefs. Working groups would be helpful for some of these discussions, as well as a pre-load prior to arriving in order to generate better thought out / researched discussions.	1
Valuable event with a diverse group of attendees.	1
